## Frontend (React) Developer

mralexanderzaytsev@gmail.com

Minsk, Belarus

<https://t.me/lexzaytsev>

<https://www.linkedin.com/in/zaytsev-alexander/>

### Profile

Frontend (React) Engineer with about 3 years of commercial experience. I work with such technologies as **React**, **Redux**, **JavaScript**, **TypeScript**, **HTML**, **CSS**, **SCSS** and all necessary other tools related to the frontend development. In the past worked a bit with backend development (Node.js, NestJS, Express.js, MongoDB, PostgreSQL), so I know basics and this knowledge helps me to do my frontend job as well. If I don't know something, there isn't a problem, I can pick up it quickly. In addition, I have good and proven skills in mentoring and code review. I'm not an algorithms geek, but I know how to do my job and I do it well.

### Projects

**iTechArt: SocialNative (as React Developer)**, Duration 1+ year

**Description:** Social Native is a marketplace technology company that connects brands with content creators to bring high-performing creative options to the forefront of brand advertising with greater speed and lower costs than anything ever seen. Marketers can improve the performance of their paid and organic social strategy with a combination of influencer marketing, custom content, and content editing.

**Responsibilities:**

- Maintained legacy application and handled customer issues, as well as implemented new functionality in the modern app;
- Created new application that connects users social accounts to our system;
- Integrated AI tool that helps clients to create campaigns with description and content requirements;
- Worked in a team with 10+ different engineers with such tools as React, TypeScript, JavaScript, Vite.

**iTechArt: AgilQuest: PhoenixWeb (as React Developer)**, Duration 2+ years

**Description:** PhoenixWeb is an application for reserving assets inside an organization (rooms, equipment, parking, etc.). Provides opportunity to search, reserve and manage assets, as well as search and manage users and theirs rights.

**Responsibilities:**

- Implemented vital parts of the solution such as, delegation reservations, charge-codes functionality, different interactive views where user can understand capacity of assets, its availability and create and manage reservation, visitor management functionality;
- Implemented designs that work across all modern desktop and mobile browsers. We had to support IE, so you understand what does it mean;
- Increased application's performance by conducting code refactoring and optimization of the existing modules;
- Developed an accessible, 508 compliance interface from scratch using WCAG techniques;
- Worked with such technologies as JavaScript, React, Redux, SCSS, Webpack.

**iTechArt: HSFI (as FullStack Developer),** *Duration about 6 months*

**Description:** HSFI - Digital management system for street food quality control. This system helps to improve the quality of street food. It enables managers and region controllers to check the quality of street restaurants based on inspection result, reviews and various reports.

**Responsibilities:**

- Contributed to solution's architecture (frontend) using the latest React development trends;
- Implemented parts of the project like UI and core business logic of the application while developing the core functionality of all the modules like user authorization, user verification, creating vendors, searching vendors by filters, vendors profile, routing, internationalization;
- Applied the recent and most useful React approaches and tools to provide the best application performance;
- Created unit test cases to achieve 85% test coverage;
- Applied several performance optimizations. Speeded up reports generation in 5 times.
- Worked in a team of 4 engineers with such technologies as JavaScript, TypeScript, React, Redux Toolkit, MongoDB, Mongoose, Express.js, Node.js, Jest, Enzyme, React Testing Library.

## Education

**Bachelor of Science in Computer** 2018 - 2022  
**Science and Software Engineering,**  
*Francisk Skorina Gomel State University*

**React + JavaScript courses, RS School** 2020

## Organizations

**Yandex Practicum,** 08/2022 - 12/2022  
*Code Reviewer on React course*

**The Rolling Scopes School,** 03/2022 - 06/2022  
*Mentor on React course*

## Languages

**Russian**  
Native

**Ensligh**  
Upper-Intermediate
