ALIAKSANDR ZAITSAU

Software Engineer

📞 +375447914420   @ mralexanderzaytsev@gmail.com   🔗 https://t.me/lexzaytsev   📍 Belarus, Minsk

SUMMARY

Proficient full stack (React.js + Node.js) software engineer with special focus on frontend development. Strong knowledge in JavaScript ES5, ES6) and typescript. Loves to learn and dig into new technologies, and can pick them up quickly.

EXPERIENCE

React Developer
iTechArt - AgilQuest: PhoenixWeb project   01/2021 - Ongoing

Application for reserving assets inside organization

- Implemented vital parts of the solution;
- Implemented designs that work across all modern desktop and mobile browsers;
- Increased application's performance by conducting code refactoring and optimization of the existing modules;
- Developed accessible, 508 compliance interface using WCAG techniques.

Full Stack Developer
iTechArt - Internship   09/2020 - 01/2021

Application for manage vendors

- Contributed to solution's architecture using the latest development trends (React, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose);
- Implemented parts of the project like UI and core business logic of the application while developing the core functionality of all modules;
- Created unit test cases using Jest, Enzyme and React Testing Library;
- Applied several performance optimizations on the backend side that decrease query execution by 4 times.

Full Stack Developer
Personal Projects: NewsTape   01/2022 - Ongoing

Application for viewing and creating news

- Created React and Nest.js web-application using Docker and PostgreSQL;
- 100% code coverage of the application using unit and integration tests;
- In progress of migration application to Next.js.

Full Stack Developer
Personal Projects: MoneyStat   08/2021 - 11/2021

Application for track your incomes and expenses

- Developed frontend and backend architecture using React and Express.js;
- Created GraphQL API.

Full Stack Developer
Personal Projects: RSS Schedule   09/2020 - 11/2020

Schedule for RS School

- Developed a well-structured, maintainable and easy to understand application frontend while adhering to the defined coding standards;
- Contributed to architecture using the React.js library;
- Created powerful reusable components with React.

SKILLS

JavaScript   TypeScript   HTML

SASS (SCSS)   React   Redux

Node.js   Express.js   Nest.js

MongoDB   SQL   TypeORM

GraphQL   Git   Jest   Enzyme

React Testing Library   JIRA

LANGUAGES

Russian   Native

English   Intermediate

ACHIEVEMENTS

💎 **Develop fully 508 accessible commercial web-application**

Faced and solved a lot of issues

💎 **First place at the Science Conference**

Overcame fear of public speaking

EDUCATION

Bachelor of Science in Computer Science and Software Engineering
Francisk Skorina Gomel State University
09/2018 - 06/2022

React + JavaScript cources
RS School
02/2020 - 11/2020

PASSIONS

💙 Travelling (visited 8 countries)

💙 Reading (favorite book: A Man Called Ove by Fredrik Backman)
